

our Titus Landing families

Meet Kelly

A couple of years ago, a very close friend passed away unexpectedly, and it changed how I lived my life. I now appreciate life and the journey I am on so much more. I take risks and chances, and I do not put off anything. This view is what brought me to partner with Habitat for Humanity. A friend of mine told me about Habitat's Affordable Homeownership Program, and I knew I had to take a chance and apply.

My daughters, Avery, and Kayena and I are currently renting the top floor of a single home. There are tenants that live below us, and this house is not set up to be a 2-unit dwelling, so there are many issues with noise.

I want to become a Habitat Homeowner because I want to own a home and provide my daughters with a better future. I remember growing up in my family home in Newfoundland. My family were constantly together doing activities in the living room by the wood-burning stove. Whether it was sitting down and talking or playing games, the room was filled with laughter. I want to create the same wonderful memories with my daughters and have them experience a home that they can call their own.

Purchasing this home will give us the sense of peace, comfort, safety and security we lack. It will allow us to finally rest easy and be calm in our home, something we have not felt in

years. I am incredibly grateful for this opportunity. My daughters and I would have never experienced homeownership otherwise.
